

PRODUCT DESCRIPTION

Introducing the Deca Lighted Mirror – an Italian masterpiece that blends exquisite design and cutting-edge technology to redefine your daily beauty experience. Designed in Italy, the Deca Lighted Mirror boasts a one-of-a-kind 10-sided matte black shape, making it a stunning focal point in any room. Our exclusive GHOST Frame Lighting technology conceals the light source within the frame when switched off, creating a mirror that’s functional and a work of art. The Deca mirror transforms into an elegant home decor piece when the integrated LED lighting is switched off. Say goodbye to foggy mirrors with the defogger and enjoy a pristine reflection, even in the steamiest bathroom conditions. With CCT selectability, you can toggle between different light temperatures to suit your mood and grooming needs. What truly sets the Deca apart are the three unique light settings activated by a simple touch of a button: one touch and the user illuminates the top three sections of the GHOST frame lighting and the ambient backlighting; a second touch and all ten areas of the GHOST frame lighting are activated; a third touch and the GHOST frame lighting disappears, but ambient backlighting remains. Operate the Deca Lighted Mirror easily using the touch sensor discreetly located at the bottom of the mirror and adjust settings or turn the mirror on or off. Elevate your self-care rituals, revel in the spacious reflection, and redefine your space with Deca – where design meets functionality in perfect harmony.
