Ambient BackLight On

Ambient Backlight Off

No-Touch IR Sensor

PRODUCT DESCRIPTION

Designed to elevate your daily routine, these mirrors boast enhanced features that combine functionality with style. Each mirror in the Spectrum Family is equipped with an onboard infrared (IR) sensor for easy control. With just a wave of your hand, you can adjust the lighting to your preference, making it effortless to create the perfect ambiance in your space. Customization is key with the Spectrum Family. Choose from a wide range of color temperatures, ranging from warm 3000K to cool 6000K, to suit your mood and preference. The wide diffusers and enhanced light output ensure consistent and uniform illumination throughout the mirror, providing optimal visibility for your grooming routine. But the Spectrum Family doesn't stop there – it also features ambient backlighting that adds a touch of sophistication to your bathroom decor. Say goodbye to foggy mirrors with the built-in defogger, which ensures crystal-clear visibility even in the steamiest of environments. Experience the perfect blend of form and function with the Spectrum Family of mirrors. Elevate your bath- room space with modern elegance and enjoy the convenience of enhanced features that make every day a little brighter.
